

**25 Black and white
abstract photography
ideas**

In this article, I tried to present some *black and white abstract photography ideas* and explain each in the hope that it will be helpful for you. Today, black and white photography is done in color and converted to B&W with graphic software.

Create abstract black and white abstract photography ideas with mental imagination

This photo is entirely fictional. It symbolizes harmony in spherical bodies and well-observed composition. However, from a conceptual point of view, it is considered an abstract work. The leading art is the correct use of shadows to induce the feeling of three-dimensional objects in the audience's mind. (Visit [Abstract Photos of Nature](#) to see more abstract images.) Abstract mental concepts are created by graphic software.

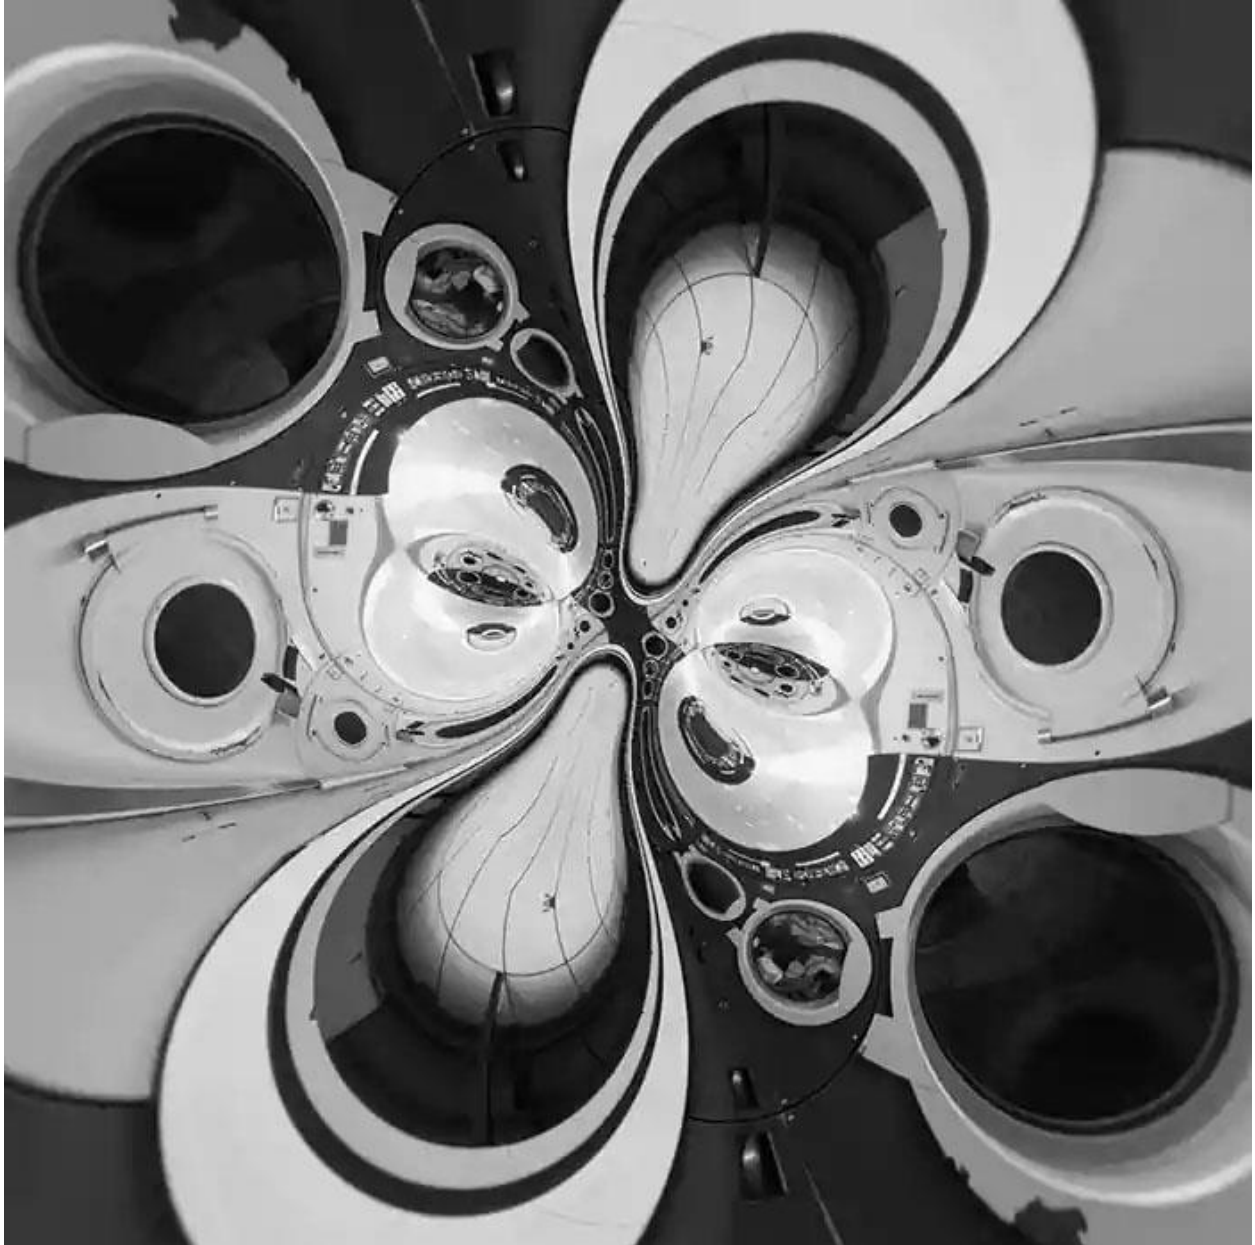

This one is a distorted perspective view of inanimate objects that has been pushed to the edge of abstraction.

Black and white abstract photos, like any B&W work, are usually taken in color and then converted to black and white.

This work was in color, but the conversion to black and white is done well, and the distribution of the gray spectrum is appropriate.

Black and white photography of water drops is a great idea

In the following picture, you can see the scene of the drop falling into the water. The photographer uses black and white contrast well to separate the border of the water' of the border from the surrounding dark environment. (Visit [Black And White Fine Art Photography](#) to read more about black and white photography.)

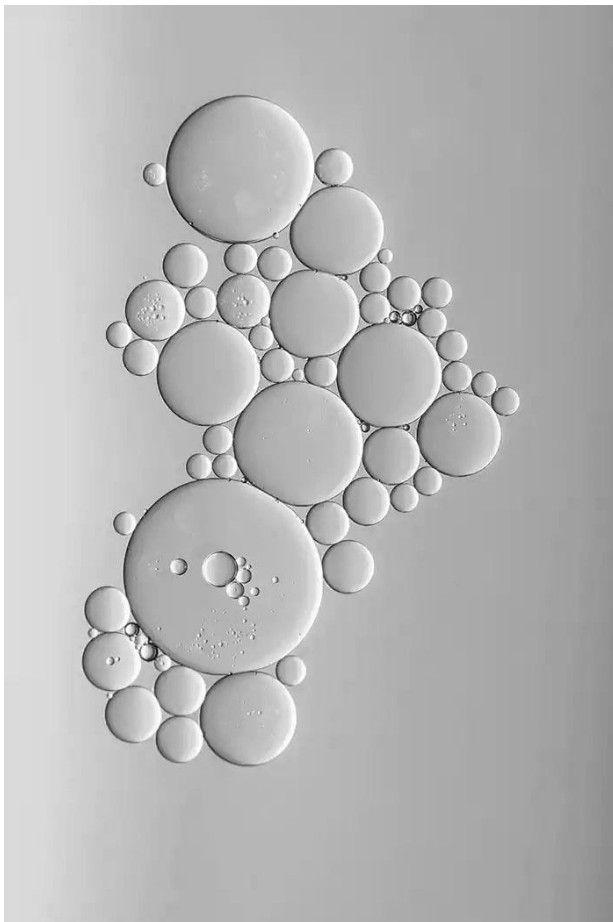

The other is water droplets on surfaces. Again, the photographer uses shadows to show the three-dimensional shape of the drops. This image is suitable for a black and white abstract background. Please look at [Black and White Photography Techniques](#) to read more.

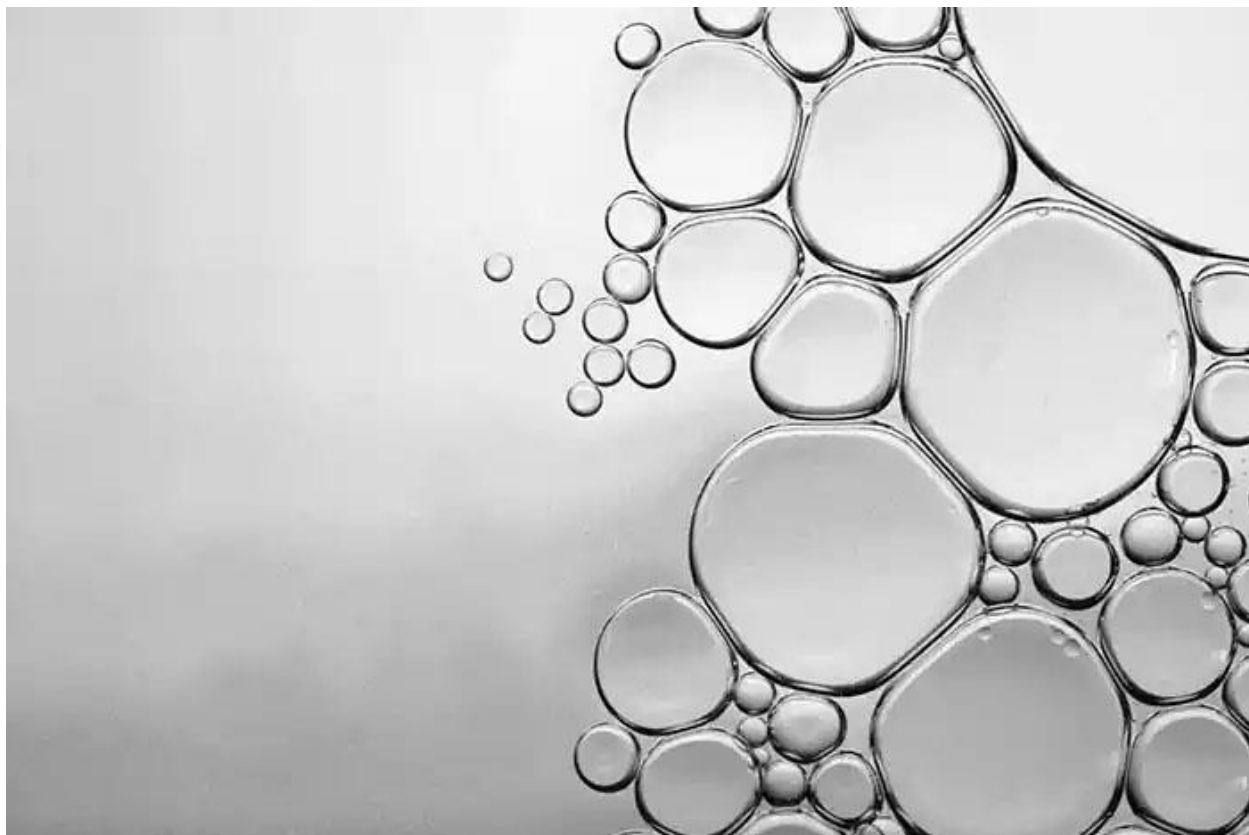

Drops fall in the water again, using a soft tone in the picture.

Images of bubbles on the surface of liquids

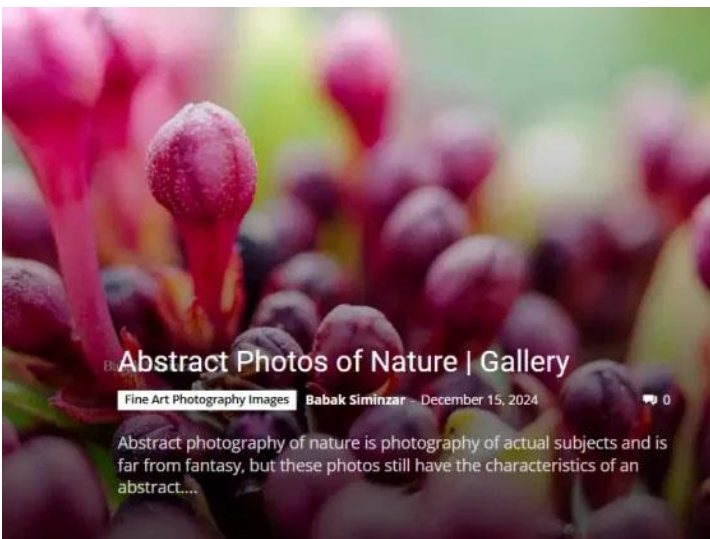

You can find many such images on Pinterest! Macro lenses take these from bubbles on the surface of liquids.

Abstract created from water waves

Many abstract photos have been taken of water waves so far; we will review some examples together.

This picture is an exciting example of concentric circular waves.

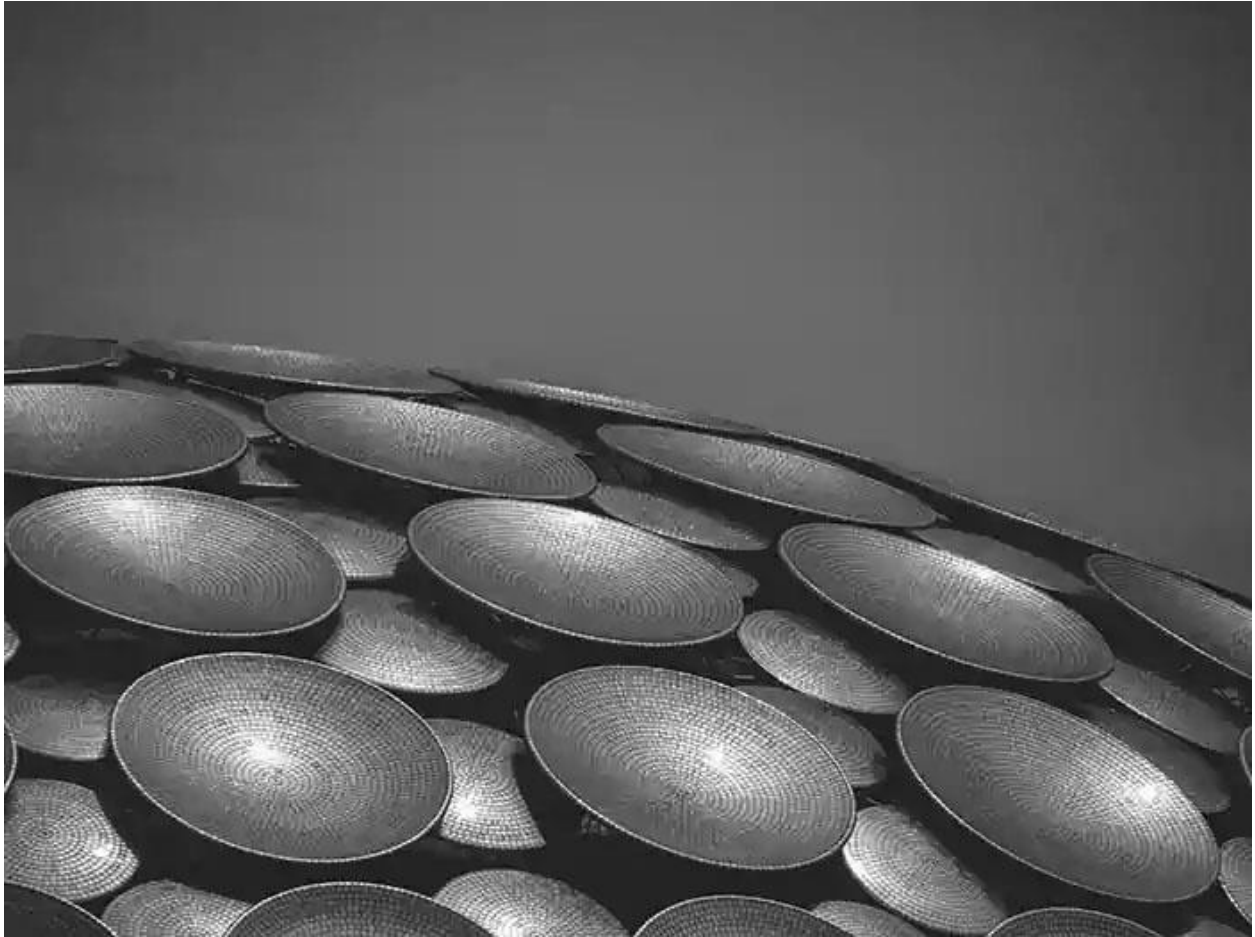

This image is a typical example of aerial photography of the seashore. The surfer does not attract attention due to his small size, and the waves of the dirty sea floor cover the surface of the photo.

In the following picture, water waves cover the image like a pattern. This style is very popular with photographers.

Black and white abstract photography ideas; inanimate objects

This image is an example of photographing an orderly pile of uniform dishes.

The next photo exemplifies black and white abstract photography ideas at home. An intriguing abstract image was taken from a plastic ball on the carpet.

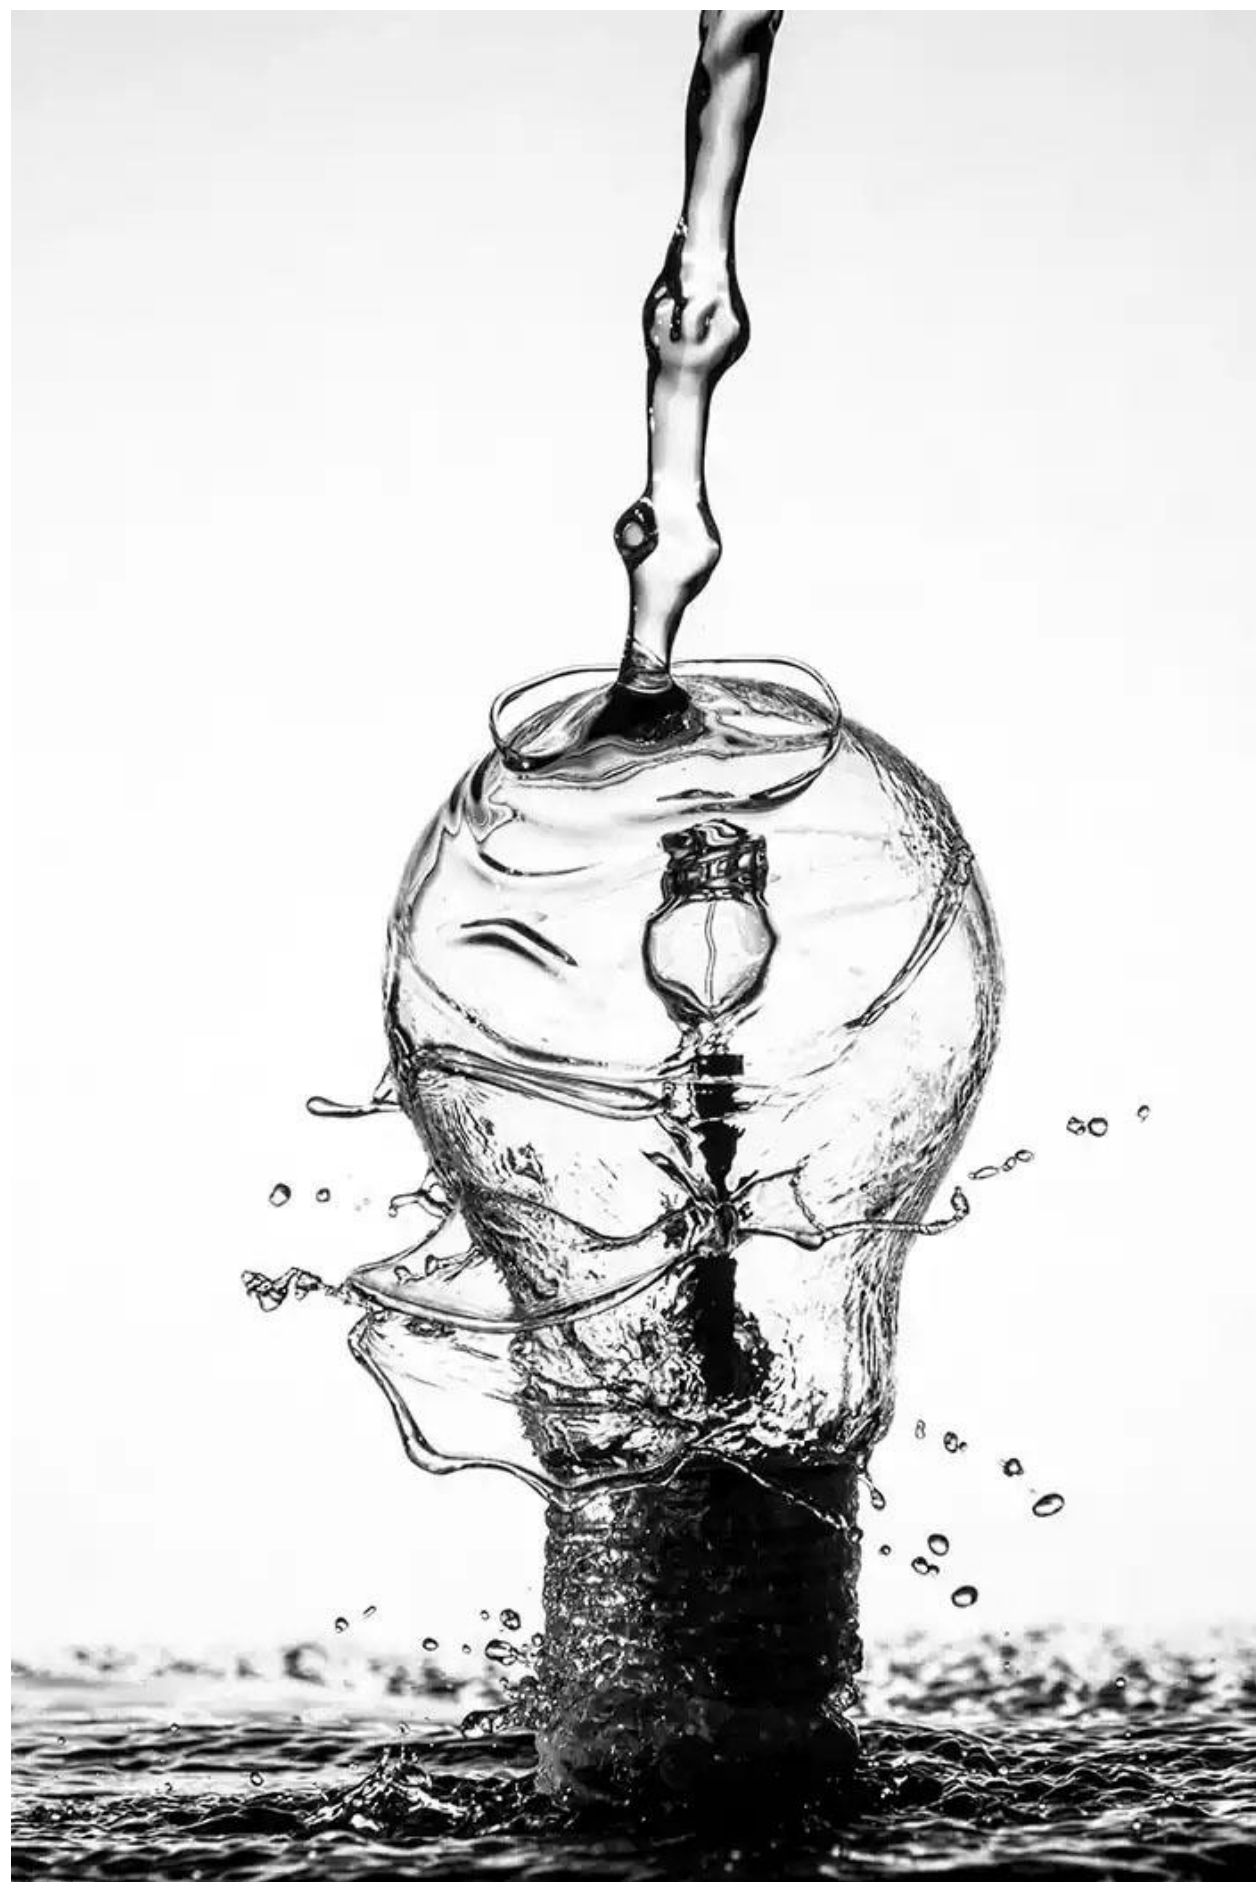

This image of photographic cameras creates a sense of technology in the audience's mind.

In this photo, numerous narrow regular shadows create an image of accuracy and order and a vast space in mind.

Street abstract photography

Here, it is taken from a river in the city, a unique abstract using a filter. (Please look at [Black and White Street Photography](#) to read more)

This is an innovative photo that challenges the rules of traditional photography. The focus is on the fences instead of the blurred person, and the light is not adjusted correctly, resulting in a unique abstract photo.

Smoke

Cigarette smoke has always been an exciting subject for black and white abstract photography ideas.

Abstract landscape photography, Rocks and glaciers

Macro photography is one of the common methods in abstract art; you can see examples of it below:

You can find various ideas in this style. Good luck!

Babak Siminzar

I am a general practitioner and work in a health center. In previous years, my place of work was rural areas in the northwest of Iran. In addition to medicine in those areas, I also did photography, which was my hobby. I am very interested in macro photography, so most of my portfolio photos are about it. I also visit and photograph historical sites on my travels.
